22 My dear Sir,

Please accept my sincere thanks for your cordial note of March 23d, which is none the less acceptable because of its late arrival.

I presume you have more sympathized than myself on the

Election - I scarcely dared dope that such a step forward could be taken with so brief a contest -

I feel the responsibility of my position, as the representative of the cause of Equal rights, irrespective of sex," and shall do my best and utmost as a pioneer in this new direction -

I dope, as the help

city Election, the Voters will express more decidedly than last year their desire to have an open town Democratic Committee.

Again thanking you for your kind note,

Yours sincerely

Lucretia Crocker.
